PROCKEDINGS OF THE CALIFORNIA MEDICAL STATE SOCIETY.

SAN FRANCISCO, CAL., Feb. 4, 1859.—Dr. J. F. BRITGER—
Dear Sir: We inclose you the official report of our State Medical Society as follows:

"At a meeting of the Medical Society, last year, it was observed that uterfine diseases of women were far more prevalent and dangerous than any other, and that nearly every woman was troubled with them in some form, that they were attended with experience shown as formal weakness, irregular mensituation, infammation, whites, falling of the scomb, and general prostration, and that, like the same difficulties all over the United States, neither wealth, references, no rear afforded only exemption but that between the append 15 and 50 these difficulties afficied size out of the nature had decreased more than sixty per cent. In the discussion of the causes producing this happy effect, it was found that a large proportion of the members present had entirely given up the old style of treatment and reserved solely to the use of Marshall's Cherine Catholicon (a medicine prepared by the Greefenberg Company), which had never been known to fall in giving permanent relief. An official indersement of the virtues of this remedy was prepared and published, and the emphasic indorsement of this lody was given to a remedy which has proved itself so valuable in relieving the afficition of wemanitied."

COMMERCIAL MATTERS.

There was a dull Stock market to-day, and with

some irregularity, the quotations generally were scarcely sustained. There was no special action on the part of the bears to depress prices, and no pressure of cash stock, but the absence of outside interest in the speculative movement and the disposition shown by the bulls to remain quiet, combined to give us a dell market, and in some cases lower prices; still the tone of the market was not nuhealthy, and the impression is very general that later in the season the stock move-ment will become more general, and draw in a large outside influence to put prices up. The cross upon which the earnings our of Railroads so largely depend are now very promising, while the foreign advices indicate that there will be a large demand for our eurplus cereals. Should our anticipations not be disappointed the monthly traffic of the Western Roads must show during the Autumn a large gain over the same period of 1859, and this will naturally induce speculation in the shares. This to some extent has already been the result, and parties having faith in the feture have already commenced a long line. Southern Michigan continues to be an exception to the down ward ten-dency of the market, and Guaranteed during the day touched 29]. Cash stock continues scarce, and the recent buyers appear to have confidence in the future of the stock, and do not sell out on the maturity of their contracts. Parisic Mail was heavy, and sold down to 904. There was considerable activity in Panama, but the quotation fell off about 1 \$\psi\$ cent more than the dividend. The statement just published of the past six menths' business is not considered a favorable exhibit, on as justifying the present price for the stock. The Western shares were without important change, but generally weak. At the Second Board the market was dull, and, after the regular session, heavy, with the exception of Southern Guaranteed, which sold as high as 29½, seller ten. Michigan Central was heavy, under the unsatisfactory results of the annual report, and was pressed for sale on sellers' options. Rock leland and Galena were firm at the closing prices. In the Bond market there was a fair closing prices. In the Bond market there was a fair degree of activity at full prices. Michigan Southern Second continues in demand, and sold at 53. A sale of \$56,000 Illinois Internal Improvement stock was made at 107, ex interest, a considerable advance. The closing prices were: Virginia 6s, 94@94; Missouri 6s, 842 884; Canton Company, 19 29; Cumberland Coal, 13; Pacife Mail, 962 901; New-York Central Railroad, 812 812; Erie Railroad, 17; 218; Hudson River Railroad, 47; 248; Harlem Railroad, 12 212; Harlem Railroad Preferred, 381 @ 391; Reading Railroad, 401 @ 401; Michigan Central Railroad 471 20 473; Michigan Michigan Southern and Northern Indiana Gu 291@292; Panama Railroad, 126@1261; Illinois Cen tral Railroad, 637@631; Galena and Chicago Railroad, 61; w62; Cleveland and Toledo Railroad, 31 @314; Chicago and Rock Island Railroad, 694 @69; Chicago, Burlington and Quincy Railroad, 73 273

The Bank of America has declared a dividend of 3 P cent, payable July 2. The Coupons of the Evans-ville and Illinois Railsoad, due July 1, will be paid by the Farmers' Loan and Trust Company. Holders of Hudson River Second Mortgage Bonds are referred to an advertisement in another column. A very large amount of the Bonds have been extended and those now out are held in small parcels. All who desire to get the money for their bonds can easily do so, as there are plenty of customers for the extended Bonds paid.

All bondholders are required to do is to come forward and thus aid the Company in completing the extension.

There is a disposition among the Banks to put ay the rates of interest, and seve all of these institutions have notified borrowers of an advance of 1 \$\vec{v}\$ cent in the borrowing elsewhere at the old rates. Long paper is going at 1 to 1 \$\pi\$ cent higher rates, and the banks appear less disposed to take lines from outsiders.

The appointment of a Receiver on both sections of the La Crosse and Milwaukee Railroad, by Judge the La Crosse and Milwankee Railroad, by Judge Miller, of the United States District Court, is a most important step toward daylight in the affairs of an institution which has earned for itself the cognomen of "the corporation of litigations." The clams of all bondholders and judgment creditors, as they stood after the sale of the road on the 21st of May, 1859, are now in a fair way of being settled upon some equitable basis; the Land Grant bondholders will no longer be subjected to any underhanded attempt to bring about a forced cash sale, precluding their purchase of the Westjected to any underhanded attempt to bring about a forced cash sale, precluding their purchase of the Western Section, and paying for it in their bonds; the first and second mortgages will be secured in their rights, and the third mortgages and judgment creditors will both receive their just dues. All this will result from the order of the Court instituting the Receivership, by which all parties will be protected until they can come together, and, by a unity of action, embracing the holders of the various classes of securities, agree upon some programme which would enable them to resume the management of their property, and induce the

Court to terminate the Receivership.

This reduction includes the amount of bonds held by the Trustees of the Sinking Fund. It has been made by the collection of a portion of the accounts and bills by the collection of a portion of the accounts and office receivable held last year, and from the proceeds of the Company's notes forming the floating debt. The road and property of the Company have been well kept up, and considerable renewa's and new permanent work done: among other things, 14 pile bridges have been entirely rebuilt, 13 arched and open stone culverts have been put in the place of a like number of wooden structures, and other improvements have been made. Construction account has not been increased during the year. The balance to the credit of income account June 1, 1859, was \$108 975 95; balance to the credit of same account June 1, 1860 \$78,205 52; reduction during the year, \$30,770 35. The proceeds of bonds to be sold, say \$85,511 11, with cash in hand and accounts receivable, will be more than sufficient to cancel the floating debt and also to pay the remainder of the bonds which quatured April 1, 1860, say \$21,060, not yet presented for payment. A further amount of \$504,000 of bonds will mature 1st October next, to meet which the Company has a reserve of an equal amount of

In relation to the movement in Cotton, W. P. Wright & Co.'s Circular says:

Racksprs at the ports, 5,000 bales, against the same quantity last year. The excess remains as given last week, 785,000 bales.

EXPORTS for the week 22.00 bales, against 45,000 same week last season. Great Britain only gets 1e,000, against 42,000, e.c.inst 42,000, e.g.inst 42,000, and 45,000 bales in the previous four years respectively. Caur—The accounts from the South are favorable for the new crop, except on the higher lands in the Atlantic States and Temmessee where continued dry weather is causing a stinate growth, From the river bottom lands and bends the accounts are favorable to a degree seldom known.
